

# AI EDUCATOR

The future of learning is here!

## Empowering Schools, Enabling Students!

We offer schools a **comprehensive and integrated approach** to math learning that prepares students for the challenges of the future. Together, we can create an environment that fosters the **holistic growth of every student.**

## Blending AI and Classroom Experience

Our platform is more than a math learning tool; it's a **comprehensive practice solution** that uses advanced artificial intelligence. Our algorithm adjusts to **student choices** and provides personalised learning paths, **identifying areas** where they need additional support. This information helps teacher create personalised learning experiences for each student.

In addition we also extended our services on **training educators offline** so they can provide a holistic learning environment. With **technology and offline experience**, we provide a unique approach to education that helps every student in unlocking their **full potential**.

**80% of learning outcomes come from 20% of the curriculum**

## Introducing Patterns

**Important concepts, formulas and methodologies in each chapter required to ace math.**

Patterns Sample Questions Q&A

Here some patterns used in this topic

Primary

1098 | Commutative + Additive

Under subtraction, addition, division & multiplication.

⚡ Your Mastery is Strong

Tertiary

1098 | Commutative

Under subtraction, addition, division & multiplication.

⚡ Your Mastery is Strong

Primary

Commutative

Under subtraction, addition, division

**Know**

Conceptual knowledge of the Patterns

**Understand**

Basic understanding of the Patterns

**Apply**

Basic applications of the Patterns

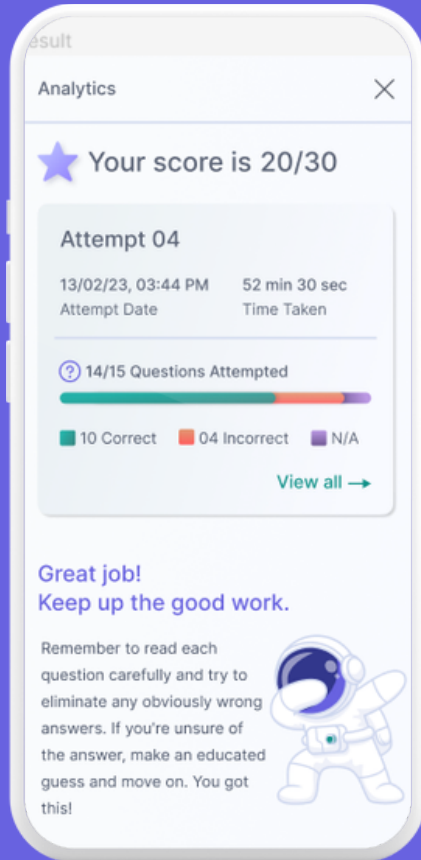

## Our Pedagogy

## Student Learning Levels

### Knowing our numbers and key theorems

## Key Features

1 Understanding of knowledge in gaps for each student

2 Comprehensive report of student performance

3 AI support for students to attempt every question

4 Test of various difficulty level

5 Multiple content format

6 Segregates important concept of every chapter

7 Accessible anywhere & everywhere

## Enabling Students

**Access assigned  
test & homework**

**Practice Math**

**AI support to solve**

**Teacher Evaluation**

**Student report  
and Insights**

We believe a practice first approach helps students learn faster and be exam-ready. Students can **attempt tests of different difficulty levels**, we also provide AI support as a push for students to attempt maximum questions.

Practice makes  
a student **perfect**  
better

You are great at solving Commutative pattern problems. But you struggle to solve 50% of problems of Commutative + Addition pattern combination. Click here to take a quick assignment that will help you solve more problems of this pattern combination.

**You did a great job!**  
Your overall score has improved by 20% compared to the previous attempts. You need to focus on following patterns to score higher.

**Patterns you need to focus on**

**1098 | Commutative**  
Under subtraction, addition, division & multiplication.

Your Mastery is Weak

## How does it help students?

### Personalised Insights

It highlights the patterns that each student needs to master to level up. It measures student competence & accuracy.

### Mastery through practice

Nudges students to practice assignments of every topic and learn as they practice.

### Segregates important concepts

All important concepts, formulas and methodologies for each chapter are classified as patterns.

### AI support

Assignment have AI support that prompt patterns for every question to help students attempt it.

**We don't just Enable Students,  
We Empower Schools!**

## Empowering School For Teachers

**Teacher Assign  
homework/test**

**Student attempt &  
submit**

**AI evaluates MCQ**

**Teachers evaluate  
Descriptive Questions**

**Student report  
and Insights**

Teachers have access to detailed report of class performance and individual student performance with AI insights that help them make decisions

## Personalised Insights for Teachers

Performance based student segregation

Chapter based insights for each class

Class performance for every chapter, test & homework

The dashboard provides a comprehensive overview of class performance. It includes a 'Pending review' section with 04 Tests, 14 Assignments, 18 Homework, and 10 Questions. A table lists 'Students you need to focus on' with columns for Roll No., Level, Student's Name, and Activity. Upcoming tests are also listed with dates. A detailed view of class performance shows a pyramid chart for student segregation and a 'Class Performance' bar chart showing average scores, submitted, and missed work across tests 1.1 to 1.9.

Roll No.	Level	Student's Name	Activity
001	L1	Arnav Sangha	Missed 04/04 Tests
010	L1	Karan Desai	Missed 03/04 Tests
028	L1	Raj Sharma	Missed 03/04 Tests

Tests	Date
Polynomial and Real numbers test	10 Mar'23
Weekly test 02	14 Mar'23
Polynomial and Real numbers test	18 Mar'23
Trigonometric and geometry equations	24 Mar'23

Chapter	Knowing our numbers and key theorems
Chapter 1	Commutative, Multiplicative, Subtractive, Additive

Chapter	Real Numbers
Chapter 2	Commutative, Multiplicative, Additive

Chapter	Trigonometric Equations
Chapter 3	Commutative, Multiplicative, Additive

Tests	Average Score	Submitted	Missed
Test 1.1	65%	55%	10%
Test 1.2	95%	75%	20%
Test 1.3	45%	40%	5%
Test 1.4	85%	80%	5%
Test 1.5	65%	40%	25%
Test 1.6	35%	70%	35%
Test 1.7	55%	85%	30%
Test 1.8	90%	85%	5%
Test 1.9	25%	35%	10%

Empowering School

## Teacher Capacity Building

Offline experiences and **monthly workshops for teacher** to upskill and create a supportive & a holistic learning environment for students

## How does it help teachers?

### Saves time & Effort

Pre-assigned assignments for every topic and makes homework and test creation easy.

### Makes teaching more personalised and meaningful

Highlights topics that each student needs to master and highlights student that need extra attention

### Easy Reports

Detailed reports of every student with access to class and section level insights

### Upskilling

Offline experiences to help educators create interactive & holistic learning environment
